Wed'y

My dear Sam,

I intended writing you more fully on Monday last for Joe. Edna and the Baby came in and other matters of a Christmas Day and Evening character came in and I got no chance. Mamma said that she was very glad that you would have come as on Christmas where there were little children that day. I took my first cheat to the office yesterday and thought I might have something from you which may be there now as I left the office very early in the afternoon to go to Mr Burnham's house in W. Media. Besides I walk out almost every day but does not often go into the City.

It continues very cold and snowy but there is not much snow: the skating being very good but not much sleighing. Paul was on Bromhall's dam yesterday and

2020/01/00120

me at Smiths Last evg to a card party which Aunt had arranged for you when all thought you would be here She put it off until the Last evg that Will Cashy and Bessie could be here as they go back to their Waterbury home to-day - thinking you would arrive meantime -

Paul appeared for the first time in the family dress coat looking quite aged. Mamma goes down to breakfast this mg as this house is kept quite warm all over and she is fearful of "rendering herself too much - If she continues to improve I can get away from here by or before 15th of January and I am anxious to know if you wish to come east now outside of desiring to see me at an early day. Church has not advised me of receiving any- thing from you regarding Green Mt. Has that the subject before which you wished to see me?
